Excision/Alteration: Yes.

Reason(s) for Excision:

One excision is required to remove a scene which promotes and supports the use of urine in association with sexual conduct. A woman urinates as she stimulates her genitals and anus with her hand and with water flowing from a hose. The camera focuses closely on the activity and her genital area. Once the woman has finished urinating she makes a comment to a man off-screen about urinating on him. The use of urine is intrinsically linked with sexual conduct in this instance and is designed to be sexually arousing to the viewer.
